Magnetic Solutions Since 1896

SCRAP LIFTING MAGNET REPAIRS and REMANUFACTURING SERVICES

Walker has a full service center devoted to repairing large and small scrap lifting magnets to "good as new" condition. A full inspection is done upon arrival of the magnet to determine the condition of the unit, we then quote how much a repair or remanufacture would cost and work begins only after approval of the customer.

- *Inspection*
- *Disassemble and Evaluate*
- *Evaluate Copper or Aluminum Conductor*
- *Re-wind Coils*
- *Assemble, Install Coils, Weld and Bake*
- *Test Electrical*
- *Paint*
- *Reattach chains and Pins*
