

WALKER MAGNETS INTRODUCES

THE C2 MAGNETIC CHUCK

Walker is proud to introduce the new **C2** permanent magnetic chuck replacing the Ceramax chuck.

- The **C2** has a high grade Neodymium (rare-earth) magnet material.
- SS and CRS top plate construction with an even finer pole pitch
- Powerful clamping force
- Attached fixed handle with 180° switching (on/off)
- Ground finish on all sides
- Clamping ledges for mounting to the machine table
- Angled back rest and end stop
- Used in grinding, light milling and sinker EDM machining

The chuck sizes are 150mm x 300mm, 150 mm x 450mm, 200mm x 450mm, 250mm x 380mm, 300mm x 450mm and 300mm x 600mm.
